Verses of Exquisite Bubbles.

They lived in the north,
and used cold as their coat.

They traveled south with generous veils,
to be bathed in light.

Golden as the sun,
they climbed onto a cloud,
and smelled the first flowers,
in butter fields.

Drinking broths to get lost,
under the rain,
they took the last bath,
and camped in the forests.

They blushed with appearances and secrets,
showing their true colors.

Enveloping themselves with their own skin,
once white but wanted to become red.

They ended up expressing themselves in the purest of ways,
revealing a sweet confidence.

2.2. A.O.C. Champagne.

We have created a very special selection; born from the affection and fascination we feel for the great wines crafted in this French region.

With this wine list, we aim to embrace the two profound philosophies that coexist today in this part of the French countryside. Each, in its own style, gives rise to wines that are as sublime as they are memorable.

Vigneron Champagne.

They are called, in French, Récoltant Manipulant.

They own their land and do not buy external grapes, meaning all of their wines are made from their own harvests and crafted with the goal of highlighting the territory, the grape variety, and the vintage.

Maison Champagne.

They are called, in French, Négociant Manipulant. Meaning they purchase grapes and produce wine from what they buy, in addition to the grapes they own. Through a unique alchemy of varieties and vintages, each Maison has created its own style, often transcending centuries and borders.
